PROFESSIONAL SUMMARY

Final-year B.Tech CSE student and MERN stack developer who builds and deploys full-stack web applications using MongoDB, Express.js, React.js and Node.js. Experienced in RESTful API design, JWT-based authentication and third-party API integration. Strong foundation in Data Structures, Algorithms and OOP, with practical exposure to Generative AI and prompt engineering.

EDUCATION

Dev Bhoomi Uttarakhand University

Bachelor of Technology in Computer Science and Engineering

2023 – 2027

CGPA: 8.4

TECHNICAL SKILLS

Languages: JavaScript, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend & Database: Node.js, Express.js, MongoDB (Atlas), Mongoose ODM, RESTful APIs, JWT Authentication

Tools & Platforms: Git, GitHub, Postman, Render, Vercel, Netlify

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming

AI Skills: Google Gemini API, Prompt Engineering, Generative AI

PROJECTS

JobFit AI – AI-Powered Interview Preparation Platform

job-fit-ai-plum.vercel.app

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, JWT, RESTful APIs, Google Gemini API, Web Speech API

- Integrated Google Gemini API into a Node.js/Express backend to parse PDF resumes and generate job-match scores, skill-gap analysis and tailored 7-day preparation roadmaps.
- Built an AI mock interview and practice module using Web Speech API and Gemini AI with real-time voice/text evaluation, scoring and feedback.
- Implemented an ATS-friendly resume generator, gamification system, global leaderboard and automated email reminders to improve user engagement.
- Secured the backend with JWT authentication, HTTP-only cookies, token blacklisting and used MongoDB for user management and data storage.

PlaceRise – University Placement Management Platform

placerise.vercel.app

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, JWT, RESTful APIs, Recharts

- Engineered RESTful APIs for student CRUD, application tracking, attendance and notifications on a university placement platform.
- Built a bulk CSV import system with automatic school/branch mapping to process 50+ student records across multiple courses.
- Developed a QR-based attendance system with duplicate prevention (MongoDB unique indexing) and PDF export.
- Designed 6+ MongoDB schemas and built aggregation pipelines for placement stats, CTC distribution and funnel analysis and managed data on MongoDB Atlas.

ACHIEVEMENTS & ACTIVITIES

- Selected to represent the college at Smart India Hackathon 2026 - project shortlisted from the internal hackathon.
- PlaceRise shortlisted for institutional adoption at DBUU - under review to digitize the college's placement process.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Oracle, valid till Oct 2027)
- Web Development(GeeksforGeeks)
